Date December 3, 1963

CLYDE ELLIOTT, Elliott Aviation Company, Harlingen, Texas, was interviewed in an effort to identify the alleged source of information given to KENNETH SHAND of Harlingen to the effect that he was a duster pilot and that President KENNEDY would be shot if he paid a visit to Texas.

ELLIOTT who knows most of the crop duster pilots operating in Texas could not think of anyone who had been in Harlingen, Texas, in about May, 1963, who could have been SHAND's source. He added that from the physical description of the source given by SHAND that the source could have been CHUCK ROGERS or HAROLD B. OLSEN. ELLIOTT added that ROGERS was last in the Harlingen area in 1957 looking for a job and that he had not been back since. ELLIOTT remarked that OLSEN had not been in the Harlingen area for several years and that OLSEN was in an advanced state of alcoholism and lived in the Wichita Falls area of Texas. ELLIOTT said that he had heard that OLSEN had been in Oklahoma trying to work during the summer of 1963.

by SA CLAY ZACHRY, JR./jmb/dnb Date dictated 11/26/63

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Zachry's reports are dated December 2 and 3. He had to have made other reports. But how diligently could the FBI have been pursuing leads for there to have been this long lapse between the time the information was forced upon it and the time the reports were typed.
